

G.W. Consultancy strengthens and extends its consultancy services by signing partnership agreement with AT 3D-SQUARED

G.W. Consultancy and AT 3D SQUARED collaborate with a shared vision: "our objective is to advance AM/3D Printing to the next level"

Bergheim, Germany – February 2019 - [G.W. Consultancy](#) is ready to strengthen its presence in Europe. The Germany-based consultancy specialises in Carbon Composite Production, Additive Manufacturing, Kaizen, and offers Extended Consultancy Services to support research and development of customer projects as well as benchmarking with Somos® PerFORM Reflect and Somos® Next with an in-house Viper Si². Now, [G.W. Consultancy](#) has established a partnership with [AT 3D-SQUARED](#).

Through the partnership agreement, G.W. Consultancy and [AT 3D-SQUARED](#) will support each other technically across all European Territories.

Kendal, United Kingdom - February 2019 - At 3D-Squared Ltd offers an exceptional breadth and depth of knowledge to its clients regarding the combined software, hardware and materials requirements to generate best practice and results with Additive Manufacturing (AM) /3D Printing technologies.

Andrew Allshorn is the CEO and Technical Director [AT 3D-SQUARED](#), [has many years of experience](#). Andrew scooped the 'Clogau Gold Growth through Innovation' award at the Daily Post Achievement Wales 2011 Awards, which followed local success at the Flintshire Business Awards in the same year. In 2017 the company was awarded the Best 3D Printing Consultancy of the year by SME Welsh Enterprise and in 2018 Andrew's appointment as a Global Ambassador for AMUG came in recognition of his tireless work in raising global awareness of AM in various roles across more than three decades

Andrew Allshorn stated: "I have been working on projects with Gerard for several years now and the opportunity to work more closely through this partnership is an exciting prospect for our companies. Gerard and I have the same huge passion for the AM industry and I am looking forward to pushing the boundaries of our industry together."

Passionate about Future Production Technologies and Process Development with 18 years' experience gained in the Motorsport Industry, Gerard Winstanley from G.W. Consultancy has been involved in the development and promotion of the latest generation of AM materials and AM processes.

Gerard Winstanley, stated: "I am proud to work so closely with [AT 3D-SQUARED](#) and to be involved with Andrew who provides such a great portfolio to the AM industry. His years of experience including his global presence as ambassador to AMUG will only help in developing my clients further and understanding the technology to fit their applications better."
